

The Natural Choice For Meat

Meat matters. Especially to us. Our beef is carefully sourced from selected suppliers, and is fully **traceable** back to its farm of origin. And to ensure a truly succulent burger, we only use **prime** cuts of meat from the forequarter and flank, with no artificial preservatives.

Range Benefits

Our burgers have been developed to deliver a juicy, great-tasting burger that you can cook **straight from frozen**. So you're never likely to run short of a menu essential.

- Convenient, easy-to cook format – our burgers can be griddled, grilled, oven baked or barbecued from frozen, for the ultimate in convenience and portion control
- High in protein
- Suitable for a range of **foodservice channels**
